急傾斜地の崩壊
(がけ崩れ)

警戒区域

特別警戒区域

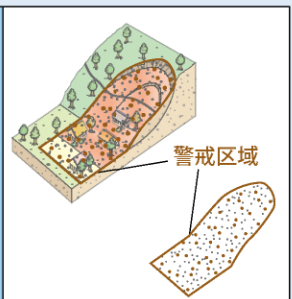

警戒区域

The diagram illustrates a cross-section of a steep slope undergoing a landslide. A red line marks the failure surface. The area above the failure surface is labeled '警戒区域' (Warning Area). The area below the failure surface is divided into two zones: a central '特別警戒区域' (Special Warning Area) and two side '警戒区域' (Warning Areas). The diagram is part of a larger presentation on disaster prevention, as indicated by the text '土砂災害警戒区域等' (Soil Disasters Warning Areas, etc.) on the left.

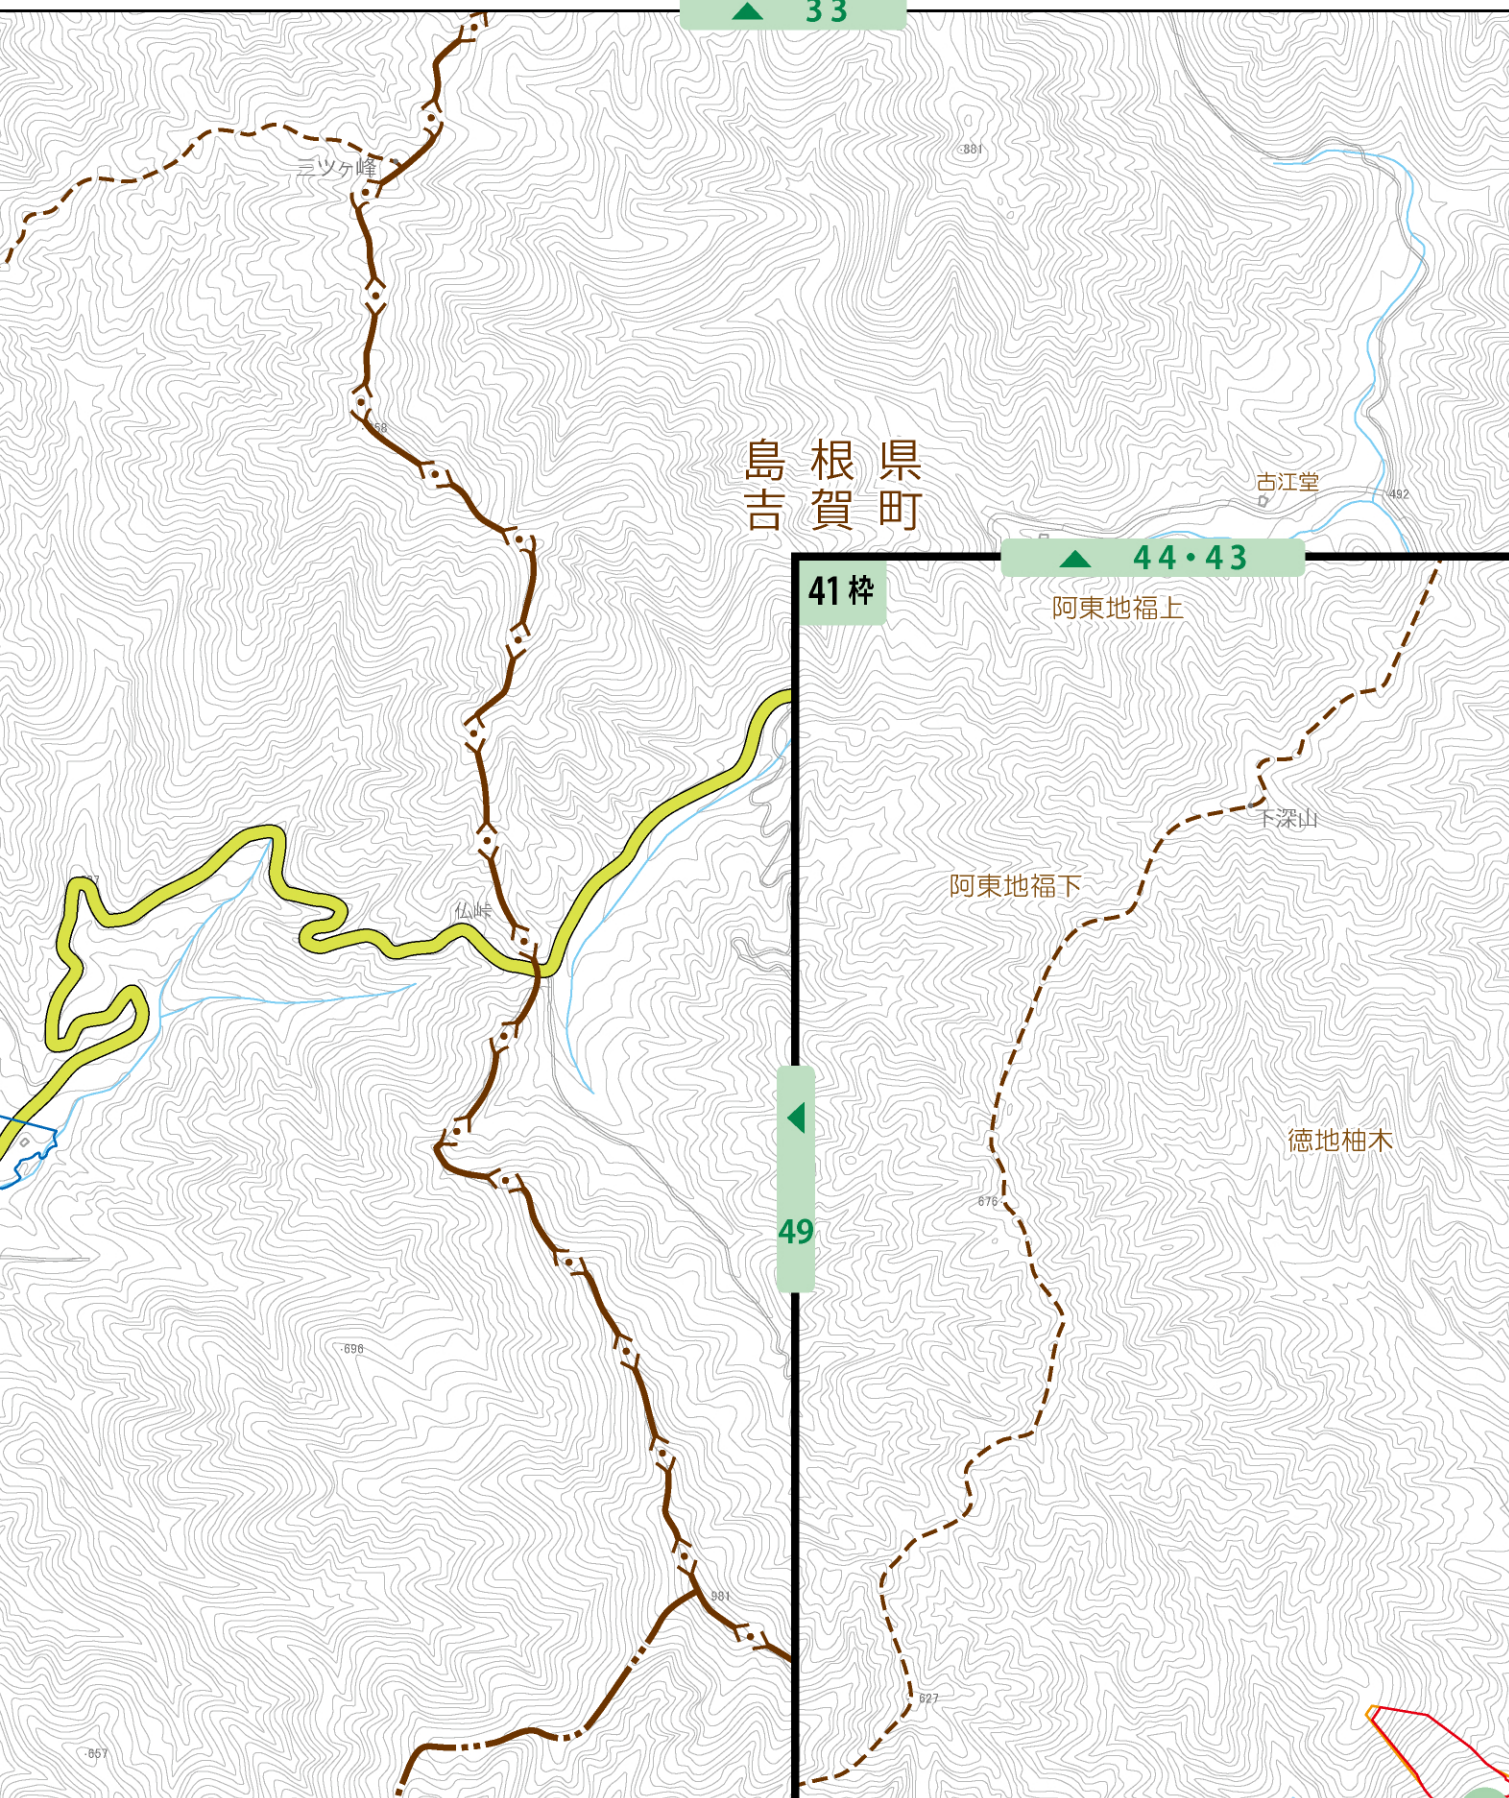

地すべり

The diagram illustrates a landslide (地すべり) on a hillside. A cross-section shows the ground surface, vegetation, and the internal structure of the soil. A landslide area is indicated by a dashed line and a shaded region. A warning zone (警戒区域) is marked by a dashed line and a shaded region. A callout shows a detailed view of the landslide area, which is filled with small dots representing debris or water.
